

Instructions:

1. This question paper contains 35 questions. All questions are compulsory.
2. The duration of the examination is 60 minutes.
3. Each question carries 2 marks. There are no negative marks for wrong answers.
4. Use only blue or black ball-point pen to mark your answers on the OMR Answer Sheet.
5. The use of calculators, mobile phones, smart watches, log tables, or any electronic gadgets is strictly prohibited.

Science

1. Arpit is standing in a dark room holding a piece of clear glass, a sheet of butter paper, and a wooden plank. He shines a torch at each one. **Which of the following will happen?**
(A) Wooden plank lets some light pass. (B) Butter paper blocks all light.
(C) Clear glass lets almost all light pass. (D) All three form the same shadow.
2. Which bird feature helps in balancing while sitting on branches?
(A) Beak (B) Wings (C) Tail (D) Feathers
3. A scientist looks at an object and sees:
Mass: 100 g
Shape: stays the same
Does not dissolve in water
Does not let heat pass through
Hard and stable
What type of object is this?
(A) Liquid (B) Gas (C) Solid (D) Soft
4. A scientist is in a laboratory with a vacuum chamber (a box with no air inside). He places a glowing light bulb and a ringing alarm clock inside the chamber. **What will he observe from outside the glass?**
(A) See light, not hear sound
(B) Hear sound, not see light
(C) Neither see nor hear
(D) Both see and hear perfectly

5. A plant is kept in a completely dark box with no holes for five days. What will most likely happen?
 - (A) It will grow taller to find light.
 - (B) Its leaves will turn yellow and it will become weak.
 - (C) It will start growing flowers.
 - (D) It will produce more food.
6. An astronaut on the Moon finds a moon rock and wants to know how much "space" it takes up. **What is being measured?**
 - (A) Mass
 - (B) Weight
 - (C) Volume
 - (D) Density
7. Which of the following is NOT a source of light, but is often mistaken for one because of reflection?
 - (A) A burning candle
 - (B) The Moon
 - (C) A glowing firefly
 - (D) A star in the night sky
8. A bird uses its feet to "perch" or hold onto a branch while sleeping. **Which bird is a perching bird?**
 - (A) Duck
 - (B) Sparrow
 - (C) Penguin
 - (D) Ostrich
9. Surgeons often apply a liquid like spirit (alcohol) or ether to a patient's skin before an injection **what sensation does the patient feel?**
 - (A) It feels hot because alcohol reacts chemically with the skin.
 - (B) It feels cold because alcohol has a high boiling point.
 - (C) It feels cold because alcohol has a low boiling point and evaporates rapidly.
 - (D) It feels neutral because alcohol is a disinfectant, not a coolant.
10. You are hiding behind a thick brick wall. You can hear your friends talking on the other side, but you cannot see them. **What does this tell you about light and sound?**
 - (A) Light passes through wall, sound cannot.
 - (B) Sound passes through wall, light is blocked.
 - (C) Both are blocked; ears work better.
 - (D) Light is slower than sound.

11. If all the trees in a city are cut down to build factories, **what will happen to the air?**
- (A) It will become cleaner and fresher.
 - (B) The level of Oxygen will decrease and Carbon Dioxide will increase.
 - (C) The air will disappear completely.
 - (D) It will rain every day.
12. You have two identical bottles: one is filled with 1 Liter of water and the other is filled with 1 Liter of air. **Which of the following is true?**
- (A) Both have the same mass
 - (B) They have the same volume, but different states of matter
 - (C) The air, which is filled in the bottle, has a fixed shape
 - (D) Only the water, which is filled in the bottle, takes the shape of the container
13. If the Earth takes exactly 24 hours to complete one full rotation on its axis, how many full rotations will it complete in the month of February during a Leap Year?
- (A) 28 rotations (B) 30 rotations (C) 29 rotations (D) 365 rotations
14. Look at the diagram. **Which organ is protected by the rib cage?**

- (A) Brain (B) Lungs and Heart (C) Stomach (D) Kidneys
15. A worker is walking in a rain-soaked muddy field. The boots need to keep feet dry, prevent slipping, and stay comfortable. **Which boots are the best choice for this situation?**
- (A) Upper: Cotton fabric, Sole: Smooth plastic, Lightweight and breathable
 - (B) Upper: Treated leather, Sole: Hard wood, Rigid and polished
 - (C) Upper: Waterproof rubber, Sole: Deep-tread rubber, Lining: Insulating fabric, Waterproof, flexible, slip-resistant, durable
 - (D) Upper: Mesh fabric, Sole: Foam, Highly breathable and soft

16. An astronomer is counting the number of moons in a small section of the Solar System. She counts 1 moon for Earth, 2 for Mars, and 79 for Jupiter.
What is the total number of moons she has counted for these three planets combined?
(A) 80 moons (B) 81 moons (C) 82 moons (D) 83 moons
17. Why do we see "Use by" dates on milk packets?
(A) To tell us how much the milk weighs.
(B) To inform us when the milk will turn into chocolate.
(C) To warn us that germs may grow in it after that date.
(D) To show how many cows were used.
18. If we paint the leaves of a healthy plant with a thick layer of oil on both sides, **why will the plant eventually die?**
(A) Because the oil is too heavy for the branches.
(B) Because the oil blocks the tiny pores (stomata), and the plant cannot breathe or make food.
(C) Because the oil attracts too many insects.
(D) Because the oil makes the plant look unattractive
19. A farmer notices that during the summer, the days are very long and he can work in the fields until 7:30 PM. In winter, it gets dark by 5:30 PM.
What is the primary reason for this change in daylight hours?
(A) Brighter Sun in summer (B) Earth closer to Sun
(C) Earth's tilt toward Sun (D) Moon pushes Sun away
20. If a bird is a "wading bird" (like a Heron or Crane), it usually has:
(A) Short legs and a flat beak.
(B) Long, thin legs and a long beak to catch fish in water.
(C) Curved claws to sit on thin wires.
(D) Heavy wings that cannot fly.
21. Why is it recommended to wear light-colored clothes while walking on a road at night?
(A) Because they keep us warmer.
(B) Because they make us move faster.
(C) Because they make us more visible to drivers.
(D) Because they are cheaper than dark clothes.

22. Imagine you are lost in a thick forest during a cloudy day, so you cannot see the sun. You have a magnetic compass with you. If you need to travel toward the South to find your camp, how will the compass help you?
- (A) Compass points to South Pole (B) compass shows North tip
(C) compass spins in circles (D) compass points to metal object
23. Animals like frogs and crocodiles can live both on land and in water. **What is a common feature that helps them swim?**
- (A) They have wings (B) They have webbed feet.
(C) They have long tails to fly. (D) They have thick fur.
24. If you find a leaking tap in your school, **what is the best thing to do?**
- (A) Ignore it and go to class
(B) Play with the water.
(C) Inform a teacher or the plumber to fix it
(D) Put a bucket under it and leave it there forever.
25. You are standing facing North. You take a 90° turn to your right. Which direction are you facing now? Then, you take another 90° turn to your right. **What is your final direction?**
- (A) East, then South. (B) West, then South.
(C) East, then North. (D) West, then North.
26. If all the lions and tigers were removed from a forest, **what would most likely happen to the population of deer?**
- (A) The number of deer would decrease immediately.
(B) The number of deer would increase, eventually leading to a shortage of grass.
(C) The deer would start eating other animals.
(D) There would be no change in the number of deer.
27. A sailor on a long sea voyage did not eat any fresh fruits or vegetables for months. He started having bleeding gums. **What was he missing in his diet?**
- (A) Fats and Oils. (B) Carbohydrates for energy.
(C) Vitamin C from protective foods. (D) Proteins from eggs.
28. During a school assembly, the principal uses a microphone and speakers to talk to 500 students at once. **What type of communication is this?**
- (A) Personal communication (B) Mass communication
(C) Non-verbal communication (D) Visual communication

29. If a traveler is going to a desert where water is scarce, **which of these foods is the BEST to carry to stay hydrated?**

- (A) Dried biscuits and salty nuts.
- (B) Fruits like watermelon and oranges.
- (C) Fried potato chips.
- (D) Chilled chocolate bars.

30. What is the function of the "Skull" in the human skeletal system?

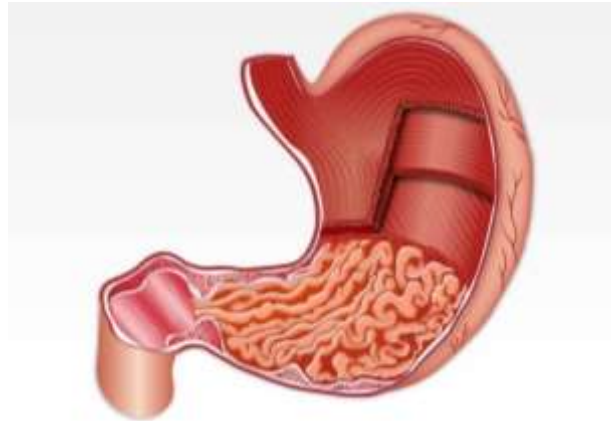

- (A) To help us digest food.
- (B) To protect the soft and delicate brain.
- (C) To help us breathe better.
- (D) To pump blood to the ears.

31. Rohan is playing in the park and accidentally scrapes his knee on a rusty metal fence. The wound is bleeding slightly and has some dirt in it. **What is the most important first step Rohan should take?**

- (A) Cover with bandage
- (B) Apply hot water
- (C) Wash with clean water
- (D) Ignore the wound

32. Look at the organ shown in the image. **What would happen if this organ stopped working?**

Stomach Anatomy

- (A) We would not be able to think.
 (B) Our blood would stop moving.
 (C) Our body would not be able to break down and digest food.
 (D) We would not be able to walk.
33. **Assertion (A):** Plastic bags should be replaced with cloth or paper bags.
Reason (R): Plastic is non-biodegradable and causes a lot of pollution.
 (A) Both Assertion (A) and Reason (R) are true, and R is the correct explanation of A.
 (B) Both Assertion (A) and Reason (R) are true, but R is not the correct explanation of A.
 (C) Assertion (A) is true, but Reason (R) is false.
 (D) Assertion (A) is false, but Reason (R) is true.
34. If we stop using "Single-use Plastics" (like straws and thin bags), **what will be the positive impact?**
 (A) There will be more trash in the oceans.
 (B) Animals will have less food.
 (C) There will be less pollution and fewer animals will be harmed.
 (D) Factories will produce more smoke.
35. If you are visiting a very dusty construction site, **which item would be most helpful to protect your health?**
 (A) An umbrella (B) A face mask (C) A pair of gloves (D) A raincoat
