

**Syllabus**

Plants, Animals and Birds, Food, Human Needs, Transport, Communication and Safety Rules, Human Body, Earth and Universe, Matter and Materials, Light, Sound and Force, Our Environment.

**Instructions:**

1. This question paper contains 35 questions. All questions are compulsory.
2. The duration of the examination is 60 minutes.
3. Each question carries 2 marks. There is no negative marks for wrong answers.
4. Use only blue or black ball-point pen to mark your answers on the OMR Answer Sheet.
5. The use of calculators, mobile phones, smart watches, log tables, or any electronic gadgets is strictly prohibited.

**Science**

1. Which of the following is made of more than one material?  
(A) Glass tumbler    (B) plastic bottle    (C) School bag    (D) Steel spoon
2. In a salon, mirrors are fixed on the walls so customers can see their haircut from different sides. This is possible because mirrors:

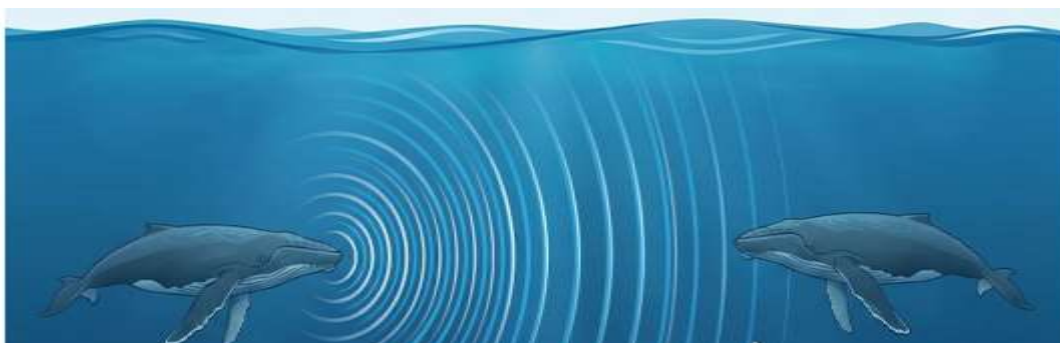

- (A) absorb all light falling on them    (B) allow light to pass through  
(C) reflect light falling on them    (D) block light completely
3. Plants are different from animals because plants  
(A) eat food    (B) move from place to place  
(C) grow towards sunlight    (D) cannot grow

4. Jeshwanth puts a stone, a sponge, and a leaf into water. Which object will sink immediately?  
 (A) Sponge (B) Leaf (C) Stone (D) Plastic ball
5. At noon, a flag pole forms a very short shadow on the playground, but in the evening the shadow becomes long. The main reason is:

- (A) Light travels in a straight line (B) Light becomes hotter in evening  
 (C) Air becomes opaque in evening (D) Reflection decreases at night
6. A plant spreads on the ground and produces large fruits. Which example best fits this description?  
 (A) Pea plant (B) Pumpkin (C) Rose (D) Mint
7. Which material is best to make a raincoat?  
 (A) Cotton (B) Wool (C) Plastic (D) Paper
8. A whale can communicate with another whale far away under water because:

- (A) Sound travels only in air (B) Sound can travel through liquids  
 (C) Water increases pitch of sound (D) Water produces sound automatically
9. People use which animal for transport in deserts, calling it the “Ship of the Desert”?  
 (A) Horse (B) Camel (C) Donkey (D) Elephant

- 10.** Which of the following is not a property of water?
- (A) It has no shape (B) It has a fixed color  
(C) It can flow (D) It takes the shape of the container
- 11.** Which situation involves a contact force due to push or pull?
- (A) Apple falling from tree  
(B) Magnet attracting iron pin  
(C) Opening and closing a door by hand  
(D) Earth revolving around Sun
- 12.** Rohan's mother told him that he needs to eat more eggs, pulses, and milk because he is growing fast.  
Which nutrient group is she focusing on in his diet?
- (A) Fats to keep the body warm  
(B) Vitamins to fight against diseases  
(C) Proteins for body-building and growth  
(D) Carbohydrates for instant energy
- 13.** A glass bottle falls on the floor and breaks, but a plastic bottle does not. This shows that plastic is:
- (A) Hard (B) Transparent (C) Flexible (D) Brittle
- 14.** Brakes of a bicycle are applied and the moving bicycle stops after some distance. The stopping is mainly due to:
- (A) Increase in gravity  
(B) Friction between brake pads and wheel  
(C) Magnetic force from brakes  
(D) Loss of muscular force
- 15.** If you walk into a dark room and suddenly turn on a very bright light, your pupils (the black center of your eyes) will become smaller. Which organ system is primarily responsible for sensing this change and reacting?
- (A) The Nervous System (B) The Respiratory System  
(C) The Digestive System (D) The Skeletal System
- 16.** A factory is releasing thick black smoke into the air and pouring chemicals into a nearby river. Based on this scenario, which types of pollution are occurring?
- (A) Only Air pollution (B) Only Noise pollution  
(C) Both Air and Water pollution (D) Only Soil pollution

- 17. Assertion (A):** Friction is a useful force in daily life.  
**Reason (R):** Friction helps brakes stop cars safely and allows us to walk without slipping.
- (A) Both A and R are true, R explains A  
 (B) Both A and R are true, R does not explain A  
 (C) A is true, R is false  
 (D) A is false, R is true
- 18.** Which of these animals would find it the most difficult to survive in a hot, dry desert?  
 (A) A Polar Bear      (B) A Snake      (C) A Camel      (D) A Lizard
- 19.** While eating dinner, you accidentally swallow a small piece of food 'the wrong way' and start coughing. Which body part was trying to protect your lungs by closing?  
 (A) Heart      (B) Stomach      (C) Tongue      (D) Epiglottis
- 20.** If a human accidentally landed on Mars without oxygen supply, survival would be difficult mainly because:

- (A) Mars is red in colour  
 (B) Atmosphere is thin and mostly carbon dioxide  
 (C) Mars has two moons  
 (D) Mars has large volcanoes
- 21.** A family is planning a trip to a very cold mountain station where it snows. What kind of clothes must they pack to meet their basic needs?  
 (A) Woolen sweaters and jackets      (B) Silk clothes  
 (C) Raincoats and umbrellas only      (D) Thin cotton shirts

- 22.** If you see a sign that says 'Do Not Litter,' which environmental habit is it encouraging you to follow?
- (A) Planting More Trees (B) Saving Water  
(C) Keeping the Surroundings Clean (D) Reducing Noise
- 23.** Why does a faraway ship look like it is slowly sinking into the sea instead of just becoming smaller?

- (A) The ship moves downward in water  
(B) Human eyes cannot see far objects  
(C) The curved surface of Earth hides the lower part first  
(D) The sea level rises near the horizon
- 24.** Riya is recovering from a common cold and wants to choose food that helps her body fight diseases and stay healthy. Which group of food should she include more of in her diet?
- (A) Rice, Potatoes, and Butter (Energy-giving foods)  
(B) Fruits, Vegetables, and Milk (Protective foods)  
(C) Sweets, Cold drinks, and Chips (Junk foods)  
(D) Eggs, Fish, and Pulses only (Body-building foods)
- 25.** To help reduce pollution in his city, Rohan decides to follow the "3 Rs." Which of these actions shows Rohan recycling?
- (A) Using an old plastic bottle as a pen stand  
(B) Turning off the lights when leaving a room  
(C) Giving old newspapers to a factory to make new paper  
(D) Carrying a cloth bag while going to the market

- 26.** Which specific alignment of celestial bodies results in a solar eclipse?
- (A) The Earth moves away from the Sun's orbit.
  - (B) The Sun comes between the Earth and the Moon.
  - (C) The Earth comes between the Sun and the Moon.
  - (D) The Moon comes between the Earth and the Sun.
- 27.** A farmer notices that chickens scratch the ground and peck at seeds. Why do they do this?
- (A) To sleep
  - (B) To find food
  - (C) To build nests
  - (D) To make noise
- 28.** Look at this simple diagram of the human body:

Which part controls your thoughts and movements?

- (A) Spine
  - (B) Brain
  - (C) Legs
  - (D) Heart
- 29.** A delivery driver uses GPS on his phone to reach an unknown address. The GPS directions are possible because:

- (A) Mobile towers store all road maps
- (B) Satellites send navigation signals to the phone
- (C) The phone measures distance from the Sun
- (D) Internet cables guide the vehicle

30. Rani has water, food, and sunlight. Which of these is most important for survival if she only had one for a few days?  
(A) Food (B) Water (C) Sunlight (D) Toys
31. **Assertion (A):** Drinking water regularly helps our body stay healthy.  
**Reason (R):** Water helps in digestion, circulation, and keeping our body temperature normal.  
(A) Both A and R are true, and R is the correct explanation of A  
(B) Both A and R are true, but R is not the correct explanation of A  
(C) A is true, but R is false  
(D) A is false, but R is true
32. Riya is alone at home. The doorbell rings and an unknown person asks her to open the door saying he is a delivery boy. What should Riya do?  
(A) Open the door and check the parcel  
(B) Ignore and inform her parents/guardian  
(C) Talk to him for a long time  
(D) Go outside and call neighbors
33. A plant grown in a dark room becomes tall and weak. Why?  
(A) It gets too much water  
(B) It grows towards light to perform photosynthesis  
(C) It has stronger roots  
(D) It makes more flowers
34. A civil engineer wants to plan a new highway and needs to avoid high mountains and deep rivers. Which type of map would be most useful at the starting stage of planning?  
(A) Road Map (B) Weather Map (C) Physical Map (D) Political Map
35. A traveler is facing north and turns 45 degrees to the right to go to a nearby village. After turning, which direction is the traveler facing?  
(A) Southeast (B) Northeast (C) East (D) Northwest

**KEY**

|       |       |       |       |       |       |       |
|-------|-------|-------|-------|-------|-------|-------|
| 1) C  | 2) C  | 3) C  | 4) C  | 5) A  | 6) B  | 7) C  |
| 8) B  | 9) B  | 10) B | 11) C | 12) C | 13) C | 14) B |
| 15) A | 16) C | 17) A | 18) A | 19) D | 20) B | 21) A |
| 22) C | 23) C | 24) B | 25) C | 26) D | 27) B | 28) B |
